

IcyCRM.com (Customer Relationship Management) provides you with plenty of flexibility to create your Web content! Whether you are a medical professional or a traditional retailer with a brick and mortar store or starting your Web site company from your home, using IcyCRM.com services will provide you with the first step on your path to create a successful Internet-based promotion and a professional or business management relationship.

Content Relationship Management

Medical Professionals

Medical professionals, dentists and other general practitioners including specialists can benefit from a range of services provided with our Assist Medic. Secure medical forms online with a secure databased Content Management System can be customized with no html knowledge required.

Email or SMS appointment reminders are also services by IcyCRM tailored to your needs.

OSC Automated Websites

IcyCRM built Automated Shopping Websites are suitable for traditional retailers and delivery restaurants, florists, gift shop, bridal stores, delivery restaurants of all kinds, auto parts manufacturers, hardware stores online. Our Web sites do not require any html or IT knowledge to operate and update. General word processing knowledge is all you require.

IcyCRM automated Web system makes it extremely easy to add and display merchandising content on your Website.

Florists and Gift Stores Online

Our Automated Shopping Website has been developed specially with florists' and gift stores' requirements in mind. The website uses a check-out process that collects important information about the person placing the orders, as well as the intended recipient. All the important delivery information is collected and credit card payment information is transmitted in safe form for your manual processing. There are no additional processing charges incurred and you are in control!
